

TechFit | GadgetFit GLOWCAPS

Do you forget to take your medication? Do you remember to take them at the wrong time? GlowCaps are pill caps that fit popular prescription bottles, designed to improve medication adherence, thereby helping people stay healthy and independent.

Inside the GlowCap is a wireless chip connected to the internet that enables four services:

- **Personal Reminder** GlowCaps flash and play a tone so you do not forget to take your prescription. It can even call your home phone.
- **Social Network Support** GlowCaps send a weekly email update to a family member or caregiver that you select.
- **Pharmacy Coordination** GlowCaps order refills from your pharmacy.
- **Doctor Accountability** Each month, GlowCaps send you and your doctor a printed report.

WHERE TO PURCHASE:

- Online at www.Amazon.com for \$99.00 or Vitality's website <http://www.vitality.net/glowcaps.html>.
